- **Subject:** LoIs for IAUS and FMs (closing date: 15.9.2019)

Dear Div D Members

The next IAU General Assembly will take place in Busan (Korea) in 2021. Therefore, by the deadline of 15 September 2019, the IAU will welcome Letters of Intent (LoIs) from the community to hold Symposia (about 6 will be approved) and Focus Meetings (about 15 will be approved) during the GA, and Symposia to be held during that same year, but at epochs different than the GA (about 3).

The LoIs will represent the seed for fully-fledged proposals (due by 15 December 2019) and will provide the Division Steering Committees with a projection of the astrophysical themes that the community favours and with a chance to convey feedback to the proposers.

Please consider this opportunity, and kindly prepare your LoIs by following the guidelines at:

<https://www.iau.org/science/meetings/rules/>

Thanks for your attention and best regards

Elena Pian, Div D Steering Committee President
